

Course Objectives

This Nationally Accredited course has been developed to cover the broad range of small workplace emergencies and workplaces as considered in AS3745.

This unit covers the competency required to provide participants the necessary skills and knowledge in the selection and operation of handheld firefighting appliances.

This training program covers response actions using spill kits, fire extinguishers, fire blankets and Fire Hose Reels.

Theoretical and practical assessments are conducted throughout the course, including the use of fire extinguishers and blankets on live flames.

Upon successful completion of this course, each student will receive a Statement of Attainment
