Enter Confined Space

MSMPER205 Enter Confined Space
MSMWHS217 Gas Test Atmospheres
MSMPER200 Work in accordance with an issued permit

Course Objectives

This Nationally Accredited course is designed for persons who are required to work on, in or near confined spaces.

All persons working in or on confined spaces must be trained to do so and comply with relevant WHS state/territory legislative requirements, Codes of Practice and AS/NZS 2865.

The course presents a broad range of potential confined space hazards, how to correctly assess & control hazards, implementation of safe work procedures, including the selection and extensive correct use of equipment and the need for an emergency response plan.

Successful attendees will be assessed as competent to undertake assessment, complete entry permits and operate gas detection & access equipment required for safe working.

Course Content
