

## Course Objectives

This Nationally Accredited course is designed for persons who may be required to assist in emergency response and rescue procedures in the workplace.

The course is tailored to your needs and may cover a broad range of potential emergency situations including how to correctly assess & control hazards and implement safe work procedures in a rescue situation.

Learners on this training program will hold the pre-requisite competency, PUAEME001B Provide Emergency Care or equivalent

Successful attendees will be assessed as competent to assess the rescue scene, work in a team to safely extricate casualties and identify equipment maintenance requirements

## Participate in a Rescue Operation

PUASAR022
